Universal Lid Kit - P/N 1120936, 1121053 and 1121054

The kit includes a universal lid, lid assembly, bracket assembly and screws for use with a Fulfill Retrofit melter. Follow these instructions for mounting the lid kit onto your melter.

**WARNING:** Risk of personal injury or equipment damage! Refer to the safety information provided in the melter manual before servicing the melter. Failure to comply with the safety information provided can result in personal injury, including death.

**Required Tools:**
- M4 Allen wrench
- Drill

1. Cut the universal lid to fit the melter. Drill appropriate hole to fit the melter.

2. Place the universal lid assembly onto the universal lid.

3. Install the bracket assembly onto the universal lid assembly with the provided screws.

4. Install the sensor into the lid assembly.

**Note:** There are 4 locations for the bracket, and some locations will require the pneumatic regulator to be repositioned to the other side of the bracket.
5. Attach the ground connection.

6. Connect the wire from the junction box to the control box.

7. Mount the control box up to 15 ft away.

8. Resume normal operation.
