Fulfill® Retrofit Membrane Panel Kit - P/N 1121805

Follow these instructions to replace the membrane onto the control box of a Fulfill Retrofit melter.

1. Disconnect and lock out power to the Fulfill Retrofit control box.

2. Remove the 4 phillips head screws that secure the top to the control box, and then remove the top.

3. Remove the existing ribbon cables from X9 and X10.

4. Remove the existing membrane panel.

5. Remove the release paper backing from the new membrane panel, and affix the panel to the control box.

6. Install the new ribbon cables into X9 and X10.

7. Replace the cover on the control box. Tighten the four phillips head screws.

8. Resume normal operation.

WARNING: Risk of personal injury or equipment damage! Refer to the safety information provided in the melter manual before servicing the melter. Failure to comply with the safety information provided can result in personal injury, including death.

Required Tools:
Phillips screwdriver
