Follow these instructions to replace the Fulfill® lid assembly for an Alta 30/50 series melter.

**WARNING:** Risk of personal injury or equipment damage! Refer to the safety information provided in the melter manual before servicing the melter. Failure to comply with the safety information provided can result in personal injury, including death.

**Required Tools:**
* 5 and 8 mm wrench

1. Purge the tank, then de-energize the system as directed in the *Maintenance* section of the melter manual.

2. Remove the side panels, then remove the existing lid and top panel.

   **Note:** In preparation for installing the new Fulfill® Lid, make sure to remove all dirt and debris from the melter.

3. Remove the existing lid and top panel.

4. Install and secure the following items as shown:
   * top panel (4)
   * sensor mounting bracket (3)
   * level probe (2)
   * Lid Assembly (1)

   **Note:** If you have the original gray ProBlue® fill hose, refer to included *Hose Cuff and Retaining Ring Replacement* instruction sheet.
